 Force used, as reported above, consistent with Police Division policy: ☒ Yes ☐ No

**Narrative Summary** – Include detailed description of officers action: See Officer Clark's attached K-9 usage report and narrative.  
 \*\*Deputy Apking and myself were assisting with the track of the suspect. We were not present nor did we witness the initial K-9 use of force on the suspect. We were in the front yard of the house when we heard that Spike had discovered the suspect. As we ran to the rear of the house, I observed "Spike" engaged in a bite on the suspect's right leg. The suspect was hiding inside of a plastic playhouse in that yard and "Spike" had a hold of her leg through a small window in that house. Officer Clark was already in the process of giving commands for "Spike" to release as we arrived and he did so. Deputy Apking then took her into custody as I covered him. The squad was called and removed the suspect to Sycamore from the scene. Sgt. Dulle from the WCSO advised that they would be handling all charges on the suspect and Dep. Apking followed the squad to the hospital. It should be noted that during my brief interview with the suspect, she advised that she clearly heard the officer and the K-9 outside the playhouse, but still failed to call out or present herself. I asked her why and she advised that she was just stupid.

Investigating Supervisor: Sgt. Aaron Zimmaro #127
